Les Bambins Rosé

AOP Pic Saint Loup

LES BAMBINS

... pic saint-loup

Syrah/grenache: 35hl/ha

Frédéric Mézy

TERROIR

The vines are located in the communes of Saint Jean de Cuculles, Triadou and Saint Mathieu de Trviers. The soils are clay-limestone coming from scree from the slopes of Pic Saint Loup. Climatic conditions contribute to the specificity of the wines. In fact, significant temperature differences (the days are hot and the nights especially cool) facilitate and improve maturation. Harmonious rainfall allows development favorable to quality

HARVEST & VINIFICATION

Passage through the sorting table, destemming and crushing.
Direct pressing. Juice kept cold and inert.
Natural decantation. Fermentation at low temperature (18° to respect the terroir).
The fine lees are kept and the aging takes place in vats with stirring until February.
Winemaking and aging are under our control, as well as that of Pascal Chatonnet.

TASTING COMMENTS FROM Mr OLIVIER POUSSIER (Best Sommelier in the World)

A beautiful color with a fair fruit of red berries and spices.
An aromatic of English candy and marshmallow.
